SUMMARY

Aspiring Software Engineer with experience in Java, Spring Boot, Python, FastAPI, React.js, and REST API development. Passionate about building scalable backend systems and modern full-stack applications.

EXPERIENCE

Associate Programmer Intern

Dream Unicorn Tech
01/2026 – 05/2026 Pune

- Built an HR Document Generation System for automated payslip and employee document generation using Next.js, SpringBoot and Supabase.
- Developed 15+ RESTful APIs for HR modules (Employee, Salary, Payslip, Letters) with JWT authentication and role-based security.
- Implemented a dynamic template engine with version control and placeholder replacement, streamlining HR document workflows.

Software Development Intern

Canspirit.ai
04/2025 - 07/2025 Pune

- Built a React + Supabase document management system with PDF generation, file uploads, and DOCX/XLSX → PDF conversion, improving automation efficiency by 30%.
- Implemented placeholder replacement, template uploads, and version control to enhance document usability.

PROJECT

Project 1 : JobBridge 2025

- Technology:** React, Spring Boot, PostgreSQL, JWT, Gemini API
- Created a placement portal for managing student information, company details and selection updates.
 - Developed secure REST APIs with Spring Boot and PostgreSQL including JWT-based authentication.
 - Integrated **Gemini API** to generate automated company messages and Improve communication flow.

Project 2 TalentBridge – Applicant Tracking System 2026

- Technology:** React.js, Fast API, PostgreSQL, SQL Alchemy, JWT, Tailwind CSS
- Developed a full-stack **Applicant Tracking System (ATS)** for managing candidates, recruiters, companies, job postings, and interview processes.
 - Implemented **JWT-based authentication and role-based access control** for Candidate, Recruiter, and Admin modules.
 - Built features including **job posting, job applications, resume upload, company management, applicant tracking, and interview scheduling.**
 - Designed and integrated **RESTful APIs using Fast API and Supabase** with secure authentication and file upload functionality.

EDUCATION

Master's in computer science

Nowrosjee Wadia college Pune
2024 2026 Pune

Bachelor of computer science

Maharaja Sayajirao Gaikwad Arts, Science, Commerce College
2021 2024 Malegaon

SKILLS

Programming Languages: Java, Python, JavaScript, C, C++, C# (.NET), SQL

Frameworks & Libraries: Spring Boot, Spring Security, Hibernate, React.js, Next.js, FastAPI, Flask, Node.js, Tailwind CSS

Web Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, RESTful APIs

Databases: PostgreSQL, MySQL, MongoDB (NoSQL), Supabase

Tools & Platforms: Git, GitHub, Docker, Postman, Supabase, IntelliJ IDEA, VS Code, Apache Tomcat

Concepts: OOPS, Procedural Programming, MVC Architecture, REST API Development, Asynchronous Programming, Exception Handling, Multithreading, Encryption, Operating System Internals

Operating Systems: Windows, Linux, UNIX
